First of all, a Shout out to all my fellow Postgrads out there!

In this tough time, I want to bring a little bit of fun to proceedings, whilst putting myself forward for

The KPA Equality and Diversity Officer

I'm a September-start of last year Masters student studying Politics and International Relations who has been at the university for over a year. I feel I have gotten to know many students in my time here, and I feel as KPA Equality and Diversity officer I could use my experiences of student life to represent the diversity of our University.

Ideas

- A continuation of the overview process of association activities to ensure fair representation and Accessibility .

Greater impact in terms of engaging with the diversity of our postgraduate community, with a focus on:

- Consistent and available advice and action regarding issues concerning representation and accessibility.
- To bring back the language exchange meetings
- An overall improved attempt to engage and involve as many Postgraduates as possible.

**The KPA can be an important part of
University life for all of us, so it is right that
we are all represented!**
